

## **Key Stage 2 Maths Homework**

**Maths Homework should be completed 3 times per week with a date and signature added after each piece of homework.**

Each week your child should be practising times tables facts for the table they are learning.

They should:

1. Write out the table starting at 0 x going up to 12 x
2. Write out the corresponding division facts.
3. Write out the table in a random order.

In addition to writing these down, children should be reciting tables and recalling facts orally in a random order during the week please.

**Children will at times revisit previous tables to ensure that these are mastered.**

**At the end of each week a comment should also be added such as**

*This homework was completed...  
Independently  
with a grown up  
with a brother/ sister  
with some help  
with lots of help*
