

St. Mark's CofE Nursery

Weekly Newsletter w/b 18/3/19

This week we will be continuing our 'Blast Off' topic, all about Space.

We will continue to learn about all things Space. We will be using magnets to do some science experiments to see which of the shiny materials are metal. We will be making stars in the playdough and counting them. We will finish our week with a surprise 'big bang'.

will

Things to do at home:

You could do some counting with your child and seeing if they can recognise numerals. Older children might like to do some addition work by counting up 2 groups of objects to find the total number.

Please help:

Please could you bring in items for junk modelling? We are making rockets, so any toilet roll/kitchen roll tubes would be great and any smaller boxes.

Special Events:

- World Down Syndrome Day – children can wear odd socks (small donations can be made but not compulsory) – Thursday 21st March
- Fairy Tale Ball – Friday 5th April (more information to follow).
- Zoolab visit – Thursday 6th June
- Reception transition/new starter lunch and meetings – 11th and 12th June (more information to follow closer to the time).
- Preston Park trip – Thursday 20th June

Thanks again for all your support
