

# What's happening in the ARB

## Afternoon Lessons

This term we will continue to look at THRIVE interventions which help us to understand ourselves better. We will continue to have daily circle times which help us with our interaction and we will focus on relationships.

**History** - Children will be learning about the history of Stockton.

**Geography** - Children will be learning to read maps, how this can help them in their day to day lives and also understanding the environment around them.

**Design Technology** - Children will be designing and making an invention that creates light.

**Computing** - Children will be looking at sequencing and repetition in scratch. They will also create instructional videos for other children in school.

**Art** - Children will be looking at abstract art and how they can learn skills to improve their own work.

**Science** - Children will investigate what impacts the speed a paper helicopter falls.

**Music** - Children will be learning to appraise contemporary music (particularly rap).

**PE** - Children will be completing the unit of athletics including circuits and drills.

**Religious Education** - In RE children will be learning about Jesus and in particular answering the question 'What would Jesus do?' They will be answering that question in relation to different scenarios.

**French** - Children will be learning food and drink, people and places in French.

**PSHE** - Children will be learning about healthy and balanced lifestyles.

**RSE** - Children in year 5 and 6 will be learning about menstruation and wet dreams. They will be completing their work on relationships.

Children in Year 3 & 4 will continue to focus on positive relationships.

## Forest Classroom

Children will be learning how to light a fire and cook soup.

### English

#### Reading

We will be reading a text together and discussing the meaning of unknown words in context, using prediction skills to discuss what may happen next in the text and summarising what we have read to show understanding.

This term we will be reading:

Demon Dentist

Some children are working on their reading using Read Write Inc and others are focussing on using their SNIPS programme.

#### Writing

Children will be writing their own horror stories based in an alternate school setting. They will then go on to writing a play script.

### Maths

This term children will complete their learning about decimals including decimal sequences and multiplying and dividing decimals. They will also learn how to measure, calculate and draw angles, 3D shapes, regular, irregular polygons and will complete work linked to Financial Understanding. Children will also consolidate their learning to date.
