

Year 2
Summer 2 2024

English

This half term in Year 2, we are focusing on writing diary entries in role as different characters. We will also be writing advertisements. The main focus of our learning will be consolidating all our new skills, including securing our ability to use spelling, punctuation and grammar accurately, consistently and confidently.

Maths

This half term in Year 2 we are going to be learning about position, direction and movement. We are also going to learn about statistics and representation of data in tally charts, pictograms and block graphs.

We will also spend time consolidating all we have learned across the year. We will revisit key mathematical topics to ensure they are securely embedded so we can build upon them in Year 3.

RE

In RE this half term, we will be exploring the question, 'What makes some places sacred to believers?' We will begin by naming special places in different religions and identifying the symbols we can recognise within each that are special to that religion.

Science

In Science we are going to be learning about animals including humans. To begin with we will look at adults and their offspring. We will then move onto the life cycle of different species. Children will embed their understanding of what animals and humans need to survive.

Geography

This half term, we will be learning about the oceans and continents in more detail. We will be thinking like Geographers to answer questions like 'Would a country exist without people?' We will learn about the layers of the earth and their names and purpose.

Art

In Art, we will be learning all about collage and how we can use it to express our ideas and imaginations. We will be learning about Kurt Schwitters and Eric Carle, and exploring the collage techniques they used to create their artwork.

RSHE

In RSHE we will be learning about what it means to be healthy. We will discuss the things that we need to be healthy and why they are important. We will also be looking at game playing and how we can benefit from playing team games.

P.E.

In Athletics, we are working hard on our long jumping as we explore different types of jumps and practise the skills we need to improve our work. We are also learning about Outdoor Adventurous Activities (OAA) and developing our teamwork skills by completing a range of challenges.

Computing

In Computing we are going to be understanding algorithms and learning how to debug an algorithm. We will use the bee bots to create an algorithm for our partners and the iPads with the bee bot app.

Music

In Music, we will be refining our performance skills in preparation for our end of year celebration assembly. We will also be exploring graphic scores and composing
