

Year Six Maths Long Term Plan 2025 to 2026

Fluency Development (Key Instant Recall Facts and Skills)			
	Key Skills		
Autumn	Spring	Summer	
Place value, number bonds, double and halving, multiplication and division facts, factors, conversions, rounding, squared numbers, fractions and decimals, x10, 100, 1000, fraction/percentage of an amount, number lines, BODMAS, prime numbers, angles, area and perimeter. Ensure fractions, decimal and percentage equivalence is taught and learnt throughout all sessions.			
	Retrieval timetable		
Autumn 1	Spring 1	Summer 1	
Times Tables	Problem of the day/word problem	Consolidation	
Autumn 2	Spring 2	Summer 2	
Problem of the day/word problem	Problem of the day/word problem	Time (with problem)	

Topic Progression Pictorial and abstract representations can be used alongside each other. Refer to the calculation policy for representations. Children expected to draw representations in books. Teach one representation at a time. Use real life experiences/data collection to support understanding. Autum 1 Number Place value and Counting (3 weeks) (Application of measure (incl. time and money) where applicable) Four Operations (4 weeks) (Application of measure (incl. time and money) and statistics where applicable) Four Operations (4 weeks) (Application of measure (incl. time and money) and statistics where applicable) Geometry Properties of Angles Properties of Shape (1 weeks) Ratio and proportion retrieval (2 Weeks) (7 Weeks)			
Refer to the calculation policy for representations. Children expected to draw representations in books. Teach one representation at a time. Use real life experiences/data collection to support understanding. Autumn 1 Number Place value and Counting (3 weeks) (Application of measure (incl. time and money) where applicable) Four Operations (4 weeks) (Application of measure (incl. time and money) and statistics where applicable) Geometry Properties of Angles Properties of Shape Ratio and proportion retrieval (2 Weeks) Ratio and proportion retrieval (2 Weeks) Children expected to draw representations in books. Teach one representations in books. Summer 1 Fractions (retrieval) Decimals, Percentages (2 weeks) (Application of number (incl. PV, A&S, M&D) where applicable) Fractions (retrieval) Decimals, Percentages (2 weeks) (Application of number (incl. PV, A&S, M&D) where applicable) Fractions (retrieval) Decimals, Percentages (2 weeks) (Application of number (incl. PV, A&S, M&D) where applicable) Fractions (retrieval) Decimals, Percentages (2 weeks) (Application of number (incl. PV, A&S, M&D) where applicable) Fractions (retrieval) Decimals, Percentages (2 weeks) (Application of number (incl. PV, A&S, M&D) where applicable) Fractions (retrieval) Decimals, Percentages (2 weeks) (Application of number (incl. PV, A&S, M&D) where applicable) Fractions (retrieval) Decimals, Percentages (2 weeks) (Application of number (incl. PV, A&S, M&D) where applicable) Fractions (retrieval) Decimals, Percentages (2 weeks) (Application of number (incl. PV, A&S, M&D) where applicable) Fractions (retrieval) Decimals, Percentages (2 weeks) (Application of number (incl. PV, A&S, M&D) where applicable) Fractions (retrieval) Decimals, Percentages (2 weeks) (Application of number (incl. PV, A&S, M&D) where applicable) Four Operations (2 weeks) Four Operations (2 weeks) (5 Weeks) One lesson per week retrieval style arithmetic (wheeks)		Topic Progression	
Children expected to draw representations in books. Teach one representation at a time. Use real life experiences/data collection to support understanding. Autumn 1 Number Place value and Counting (3 weeks) (Application of measure (incl. time and money) where applicable) Four Operations (4 weeks) (Application of measure (incl. time and money) and statistics where applicable) Geometry Properties of Angles Properties of shape (1 weeks) Properties of shape (1 weeks) Ratio and proportion retrieval (2 Weeks) Teacher assessment (3 weeks) Four Operations Consolidation (2 weeks) Four Operations Consolidation (2 weeks) One lesson per week retrieval style arithmetic (wheeks) Ratio and proportion retrieval (2 Weeks)	Pictorial and abstract representations	can be used alongside each other.	
Teach one representation at a time. Use real life experiences/data collection to support understanding. Autumn 1 Number Place value and Counting (3 weeks) (Application of measure (incl. time and money) where applicable) Four Operations (4 weeks) (Application of measure (incl. time and money) and statistics where applicable) Geometry Properties of Angles Properties of Shape Ratio and proportion retrieval (2 Weeks) Four Operations (1 weeks) Algebra Ratio and proportion retrieval (2 Weeks) Ratio and proportion retrieval (2 Weeks) Summer 1 Year 6 Consolidation and retrieval (5 Weeks) Teacher assessment (3 weeks) Four Operations Consolidation (2 weeks) Four Operations Consolidation (2 weeks) Algebra One lesson per week retrieval style arithmetic (wheeks)	Refer to the calculation policy for repr	esentations.	
Use real life experiences/data collection to support understanding. Autumn 1 Number Place value and Counting (3 weeks) (Application of measure (incl. time and money) where applicable) Four Operations (4 weeks) (Application of measure (incl. time and money) and statistics where applicable) Geometry Properties of Angles Properties of Shape Ratio and proportion retrieval (2 Weeks) Summer 1 Year 6 Consolidation and retrieval (5 Weeks) Teacher assessment (3 weeks) Four Operations Consolidation (2 weeks) Four Operations Consolidation (2 weeks) (5 Weeks) One lesson per week retrieval style arithmetic (wheels) Ratio and proportion retrieval (2 Weeks)	Children expected to draw representat	ons in books.	
Autumn 1 Number Place value and Counting (3 weeks) (Application of measure (incl. time and money) where applicable) Four Operations (4 weeks) (Application of measure (incl. time and money) and statistics where applicable) Geometry Properties of Angles Properties of shape (1 weeks) Ratio and proportion retrieval (2 Weeks) Spring 1 Fractions (retrieval) Decimals, Percentages (2 weeks) (Application of number (incl. PV, A&S, M&D) where applicable) Four Operations (4 weeks) (Application of measure (incl. time and money) and statistics where applicable) Four Operations (1 weeks) Four Operations Consolidation (2 weeks) Algebra One lesson per week retrieval style arithmetic (wheeks) Ratio and proportion retrieval (2 Weeks)	Teach one representation at a time.		
Number Place value and Counting (3 weeks) (Application of measure (incl. time and money) where applicable) Four Operations (4 weeks) (Application of measure (incl. time and money) and statistics where applicable) Four Operations (4 weeks) (Application of measure (incl. time and money) and statistics where applicable) Four Operations (4 weeks) (Application of measure (incl. time and money) and statistics where applicable) Fractions (retrieval) Decimals, Percentages (2 weeks) (Application of number (incl. PV, A&S, M&D) where applicable) Fractions (retrieval) Decimals, Percentages (2 weeks) (Consolidation and retrieval (5 Weeks) Teacher assessment (3 weeks) Four Operations Consolidation (2 weeks) Algebra (2 weeks) Algebra (2 weeks) Algebra (2 weeks) Properties of Angles Properties of Shape (1 weeks) Ratio and proportion retrieval (2 Weeks)	Use real life experiences/data collection	n to support understanding.	
Place value and Counting (3 weeks) (Application of measure (incl. time and money) where applicable) Four Operations (4 weeks) (Application of measure (incl. time and money) and statistics where applicable) Four Operations (4 weeks) (Application of measure (incl. time and money) and statistics where applicable) Four Operations (4 weeks) (Application of measure (incl. time and money) and statistics where applicable) Four Operations (a weeks) Four Operations Consolidation (a weeks)	Autumn 1	Spring 1	Summer 1
One lesson per week retrieval style artimetic (where applicable) One lesson per week retrieval style artimetic (where applicable)	Place value and Counting (3 weeks) (Application of measure (incl. time and money) where applicable) Four Operations (4 weeks) (Application of measure (incl. time and money) and statistics where applicable) Geometry Properties of Angles Properties of shape (1 weeks) (8 weeks)	(Application of number (incl. PV, A&S, M&D) where applicable) Geometry (1 week) Properties of Shape Algebra (2 weeks) Algebra Ratio and proportion retrieval (2 Weeks) (7 Weeks)	Consolidation and retrieval (5 Weeks) Teacher assessment (3 weeks) Four Operations Consolidation (2 weeks)

Autumn 2	Spring 2	Summer 2
Number Fractions, decimals and percentages (6 weeks 2 weeks of four operations of fractions) (Application of number (incl. PV, A&S, M&D) where applicable)	Perimeter, Area and Volume (2 weeks) (Application of number (incl. PV, A&S, M&D) where applicable) Teacher assessment (6 Weeks) * Spring 2 may be altered following teacher assessment.	Geometry Position and Direction (Incl. coordinates) Properties of Shape and Angles (1 weeks) Statistics Graphs, Charts and Tables (2 weeks)
(6 Weeks to allow for adjustments)	One lesson per week retrieval style arithmetic (where applicable)	Consolidation, Retrieval and Application Efficiency and fluency in mathematical thinking with application to real life mathematically rich projects (4 weeks) (7 Weeks)
(6 Weeks to allow for adjustments)		One lesson per week retrieval style artimetic (where applicable)
One lesson per week retrieval style artimetic (where applicable)		

	Year 6 objectives
Number and Place Value 3 weeks - some of these lessons may take longer than one	To recognise the value of all of the digits in numbers up to 1,000,000 - pictorial/concrete
lesson or may be practical	To recognise the value of all of the digits in numbers upto 10,000,000
Teacher notes	To identify which digit has a certain value in numbers up to 10,000,000.
Ensure you are always using place value hats on all work	To use pictorial representations to represent the same number in digits and words numbers up to 10,000,000.
presented in books. • Decimal places have a box of their own Place value hats	To use the less than, greater than and equals symbols to compare numbers and pictorial representations of numbers – 2 numbers up to 10,000,000
M 100 10 th h t o . 1/10 1/100 Th th	To use the less than, greater than and equals symbols to compare numbers and pictorial representations of numbers – 2 numbers up to 3 decimal places
	To order numbers and pictorial representations of numbers- 4 numbers including decimals up to 10,000,000
	To order numbers - 4 numbers including decimals up to 10,000,000
	To round any number up to 1,000,000 to the nearest 10, 100 or 1000.
	To round any number up to 10,000,000 to the nearest 10,000, 100,000 or 1,000,000
	To round to the nearest whole number and tenth (including in context e.g. nearest pound).
	To place numbers with a range of intervals including negative numbers on a number line
	To use negative numbers in context

	rear o objectives
Four operations	To add numbers using column addition up to 10,000,000 (including
3 weeks - some of these lessons may take longer than one	problems)
lesson or may be practical	To add numbers including decimals in context (money and decimals)
research may be processed.	To subtract numbers using column subtraction up to 10,000,000
Teacher notes	(including problems)
reacher hores	To subtract numbers including decimals in context (money and
	decimals)

- Ensure you are always using place value hats on all work presented in books.
- Decimal places have a box of their own.
- Calculations completed down the page, not across.
- On addition, subtraction, multiplication and division use estimation within teacher modelled answers
- Encourage children to check answers in green pen using inverse next to the calculation.
- When solving problems children/teacher should use 5 steps flow map. (teacher to support/model step one and two for Year 5).
- When dividing by 10, 100 and 1000 starting with decimals allows them to further their understanding of decimal places.
- When teaching multiplication refer to Year 4 method for pictorial
- When completing any multiplication/division encourage children to write multiplication down the side.

Place value hats...

M 100 10 th h t o . 1/10 1/100 Th th To solve multi step problems within context choosing the appropriate method.

To multiple whole numbers and decimals by 10

To multiple whole numbers including decimals by 10, 100 and 1000 To divide decimal numbers by 10, 100, 1000.

To divide whole numbers and decimals by 10, 100 and 1000

To multiply 4 by 1 digit number including an exchange.

To multiply 4 by 2-digit numbers including exchanges

To divide a 4 by 1-digit number including pictorial representations without remainder. May not be completed in books.

To divide a 4 by 1-digit number without remainder.

To divide a 4 by 1-digit number with remainder. Remainders need to be completed as decimals.

To divide a 4 by 2-digit number with remainder. Remainders need to be completed as decimals.

To solve multi step problems including all four operations within context choosing the appropriate method.

Properties of angles 1 weeks - some of these lessons may take longer than one lesson or may be practical Over learner key facts e.g. angles around a point is 360. Year 6 objectives To identify and recall different types of angles Within this lesson how to read and use a protractor To estimate and measure angles (allow within 2 degrees). To estimate and measure angles (allow within 2 degrees) including reflex angles To draw angles to a given point including reflex To draw a range of shapes (e.g. quadrilaterals and triangles with measurements provided (to nearest mm)

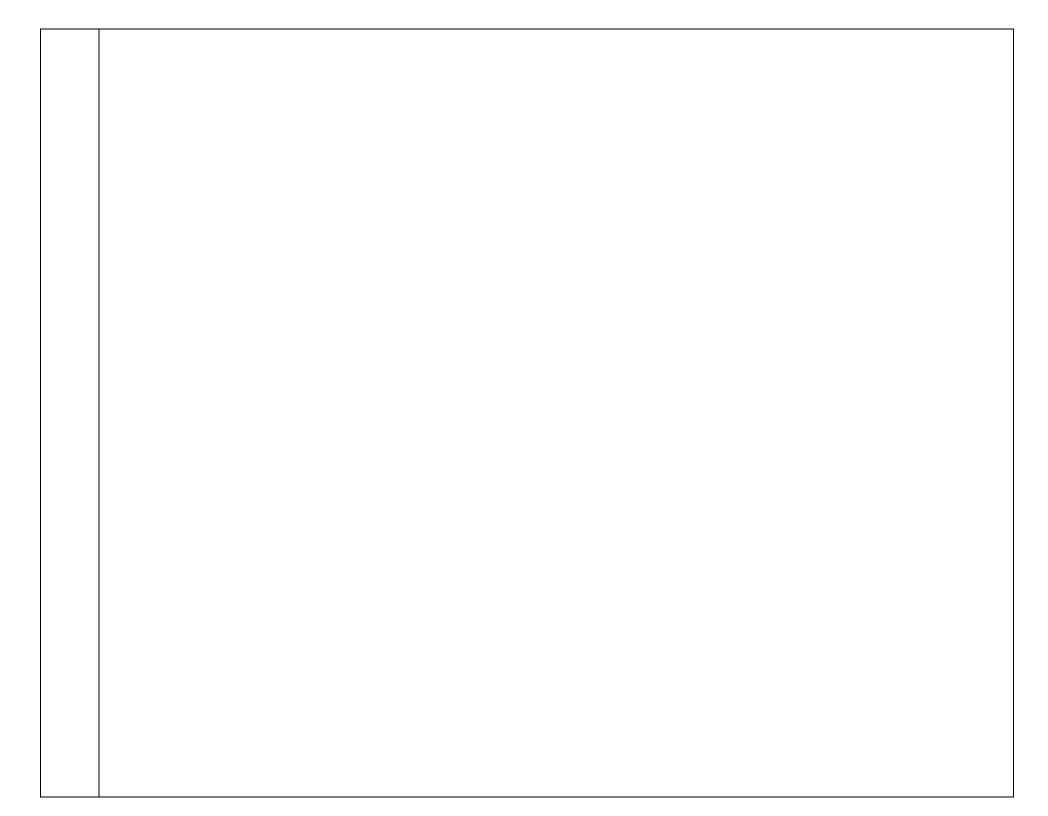

One Excellence Multi Academy Trust

Year Six Maths Planning Guidance 2025 to 2026

	Year 6
These are	e suggestions and do not all need to be individual lessons and multiple can be taught
Strand	Suggested Small Steps
0)	Numbers to 10,000
alue	Numbers to 100,000
>	Numbers to a million
Place	Read and write numbers to 10 million
₫.	Compare and order any number
Pur	Round numbers to 10, 100 and 1,000
<u></u>	Round any number
र्वे	Negative numbers (in context)
ラ	Negative numbers (more abstract)
_	Solve number and practical problems for all of above

	Year 6
These are	suggestions and do not all need to be individual lessons and multiple can be taught
Strand	Suggested Small Steps

Add whole numbers with more than 4 digits Subtract whole numbers with more than 4 digits Inverse operations (addition and subtraction)

Multi-step addition and subtraction problems

Add and subtract integers

Multiply 4-digits by 1-digit

Multiply 2-digits (area model)

Multiply 2-digits by 2-digits

Multiply 3-digits by 2-digits

Multiply up to a 4-digit number by a 2-digit number

Divide 4-digits by 1-digit

Divide with remainders

Short division

Division using factors

Long division

Factors

Common factors

Common multiples

Primes to 100

Squares and Cubes

Order of operations

Mental calculations and estimation

Reason from known facts

	Year 6
	e suggestions and do not all need to be individual lessons and multiple can be taught
Strand	Suggested Small Steps
_	Using ratio language
io L	Ratio and fractions
r e	Introducing the ratio symbol
ᅙ	Calculating ratio activity
Ratio and Proportion	Calculating ratio
ä	Using scale factors
.은	Calculating scale factors
Rat	Ratio and proportion problems
_	
	Equivalent fractions
	Simplify fractions using common multiples
	Improper fractions to mixed numbers
	Mixed numbers to improper fractions
	Fractions on a number line
	Compare and order (denominator)
	Compare and order (numerator)
	Add and subtract fractions
	Add mixed numbers
	Subtract mixed numbers
	Mixed addition and subtraction
	Multiply fractions by integers
SE O	Multiply fractions by fractions
Fractions	Divide fractions by integers
Fr	Four rules with fractions
	Fraction of an amount
	Fraction of an amount - find the whole
	Decimals as fractions
	Fractions to decimals
	Decimal places and multiply and divide by 10, 100 and 1000
	Understand percentages
	Fractions to percentages
	Equivalent FDP
	Order FDP
	Percentage of an amount

	Year 6
	e suggestions and do not all need to be individual lessons and multiple can be taught
Strand	Suggested Small Steps
	Percentages (missing values)
	Percentages as comparisons
	Decimals up to 2 d.p.
	Understand thousandths
	Three decimal places
	Multiply by 10, 100 and 1,000
	Divide by 10, 100 and 1,000
	Multiply decimals by integers Divide decimals by integers
	Division to solve problems
	DIVISION TO SOIVE PLODIENTS
	The first quadrant
2	Four quadrants
6	Translations
<u>ē</u>	Reflections
Sosi	
on ion	Shapes — area
pe ect	Area and perimeter
Geometry: Shape & Position and Direction	Area of a triangle
;, _ ;,	Area of a parallelogram
etr.	What is volume?
Ë	Volume - counting Cubes
9e	Volume of a cuboid

	Year 6
Those one	e suggestions and do not all need to be individual lessons and multiple can be taught
Strand	Suggested Small Steps
Struitu	Measure with a protractor
	Draw lines and angles accurately
	Introduce angles
	Angles on a straight line
	Angles around a point
	Calculate angles
	Vertically opposite angles
	Angles in a triangle
	Angles in a triangle - special cases
	Angles in a triangle - missing angles
	Angles in special quadrilaterals
	Angles in regular polygons
	Draw 2D shapes accurately measuring angles
	Recognise, describe, draw nets of 3-D shapes
	Compare and classify shapes
	Circles including, radius, diameter and circumference
	Metric measures
Measureme nt: Length/ Height	Convert metric measures
ure eng ıt	Calculate with metric measures
easi : L	Imperial measures
š t i	Solve problems involving the calculation and conversion of units of measure
	Use, read, write and convert between standard units, converting measurements of length, mass, volume and time
'Vol	Convert between miles and kilometres
Measure nt: Weight/1	
eas : eig	
Mec nt: Wei	
9 .	
Measureme nt: money	
nsu mo	
Mec nt:	

	Year 6
	suggestions and do not all need to be individual lessons and multiple can be taught
Strand	Suggested Small Steps
Measureme nt: Time	
🔽	Line graphs
ics	Read and interpret pie charts
ist shs ts	Draw pie charts
Statistics: Graphs and Charts	Mean and average
	Find a rule - one step
	Find a rule - two step
	Forming expressions
	Substitution
	Equivalent expressions
	Formulae
	Missing number problems
	Forming equations
	Solve simple one-step equations
۵	Solve two-step equations
Algebra	Find pairs of values
\lge	Linear sequences
4
